TURN TO

CHASE

FOR BETTER BAGS

For 97 years Chase has been making bags . . . to carry the produce of the fields and the products of America's factories safely to market.

These years of research, of practice, of experience . . . insure consistently high quality in "Bags of All Kinds" by Chase — paper bags, cotton bags, burlap bags, special bags, Saxolin bags. Saxolin, the original open-mesh bag, is the ideal bag for onions, potatoes, cabbage, apples . . . other fruit and produce.

Chase bags are rated tops for the quality materials of which they are made, the fine precision with which they are put together, the skillful manner in which they are printed. So . . . always turn to Chase for better bags!

DEALERS CHOICE!

Farmers looking for crop protection implements want to see a large selection. The Farquhar Iron Age Dealer is thus in a good sales position because he can offer a wide choice of Sprayers and Dusters to meet any need. Next to complete spray and dust coverage farmers want dependable, trouble-free operation . . . both outstanding Iron Age qualities. The result: a satisfied customer, less maintenance, fewer service calls. That's why Farquhar Iron Age is the dealers' choice.

**FARQUHAR
IRON AGE
YORK, PA.**

Tractor trailer steel tank orchard sprayer; can be converted for row crop.

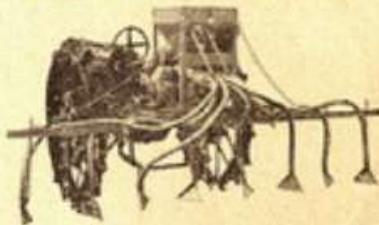

Farquhar Iron Age Sprayers are proven dependable for every orchard, grove and row crop. The famous Iron Age Victory pump in seven standard sizes delivers from 6 to 40 gallons per minute with working pressures up to 1000 lbs. per square inch . . . with perfect atomization that is the secret of complete coverage. Iron Age dealers also make sales by pointing out the pump's displacement efficiency of 99.5 plus . . . that all gears and bearings are fully enclosed and running in a bath of oil . . . that all valves are readily accessible . . . that plunger cups rarely need renewal.

**FARQUHAR
IRON AGE
YORK, PA.**

Row crop sprayer with folding boom; Victory Pump pressure up to 1,000 lbs.

**FARQUHAR
IRON AGE
YORK, PA.**

New tractor mounted, engine driven duster, convertible for orchard or grove.

Farquhar Iron Age Dusters, both traction, power take-off or engine driven, deliver a true, high velocity blast. Farmers like the high speed blower with ball bearing aluminum fan . . . with all gears and bearings fully enclosed and running in a bath of oil. Patented air flow dust vanes give your customer ready control of equalized velocity to every nozzle on the row crop booms.

The power take-off fruit duster has double blowers that assure positive reduction of arsenate tolerances for orchard work. Whether the grower sprays or dusts you can offer him many profit-making Iron Age advantages . . . and proven dependability.

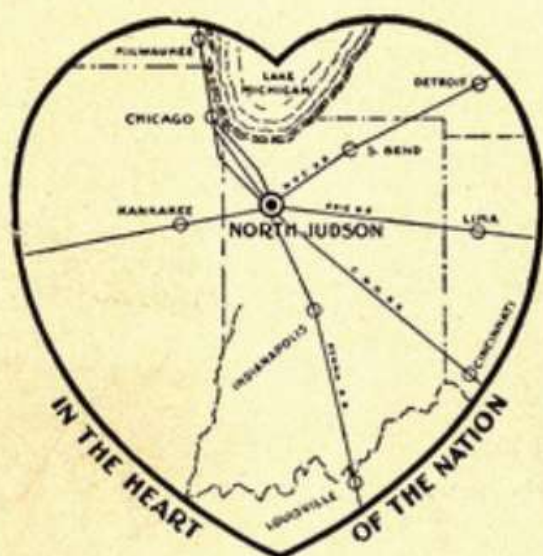

**FARQUHAR
IRON AGE
YORK, PA.**

Tractor power take-off duster, very high velocity for 6, 8, 10 or 12 rows.

THE
NORTH JUDSON AREA MUCK CROPS SHOW
North Judson, Indiana
October 4-7, 1944

“Show What You Grow” — “Share What You Know”

Any show of this kind, whether it be large or small, is the expression of the progress of the community it represents. Agricultural achievements are on display, and ideas that have not yet assumed a concrete form, are proffered for the common good of the community in which the show is held.

The purpose of this show is to educate by offering the visible proof of the benefits accruing from the adoption of new ideas, to entertain through clean amusements and interesting displays and to inspire in the hearts of the patrons, a respect for the community in which they live and to incite them to renewed endeavor.

THE QUEEN OF THE SHOW

As a special feature of the entertainment this year at the North Judson Area Muck Crops Show, a Beauty Queen contest will be held on Friday evening, October 6, in the high school auditorium, North Judson.

Each city, town and community within the muck soil area of Northern Indiana has been invited to select and enter a young lady as a representative.

The one winning in the contest will be crowned Queen of the Show by Governor Henry F. Schricker and will be awarded a \$100.00 War Bond. The second and third winners in the contest will be attendants to the Queen and each will receive a \$25.00 War Bond.

MUCK CROPS SHOW VEGETABLE DEMONSTRATION CONTEST

— NORTH JUDSON —
HIGH SCHOOL AUDITORIUM

9:00 A.M.—Thursday, October 5, 1944

RULES

1. Entries will be limited to teams of one or two boys or girls, who are at least twelve and not over twenty-one years of age.
2. A demonstration may be on any topic related to the production, consumption and marketing of vegetables. The following list of topics is merely suggestive:—Seed treatment for control of diseases or insects—Treating and cutting seed potatoes—Germination tests of seeds—Construction and preparing hotbeds or cold-frames—Soil fumigation—Sowing seeds in flats, beds or field—Transplanting in beds or fields—Mixing of fertilizers—Applying fertilizers in field—Cultivation—Irrigation—Spray pest control—Systems of succession cropping—Variety types—Preparing vegetables for market, such as harvesting, washing, waxing, grading, packing, precooling, etc.—Packages used to market vegetables—Roadside markets—Fitting vegetables for exhibits, cooking vegetables, preparing vegetables for table, etc.
3. Each team must furnish its own demonstration materials.
4. Each team will be limited to fifteen minutes actual demonstrating time with three minutes more for questions from the audience. There will be no penalty for completing a demonstration in less than fifteen minutes. If materials have to be prepared just before the time of the demonstration, this can be done while the preceding team is demonstrating.
5. The teams will be judged according to these items:
 - a. Suitability of demonstration for the occasion.
 - b. Accurate and adequate information.
 - c. Speech—clear and effective.
 - d. Attitude pleasant and friendly.
 - e. Ability to answer questions from audience at end of demonstration.
 - f. Time utilized. Penalty for excess.
6. Awards: The winning team and coach will receive \$50.00 to defray expenses to the national vegetable demonstration contest at Rochester, N. Y., December 8-9. This award is provided by the Indiana Farm Bureau Co-Operative Association.

THE EIGHTH ANNUAL

MUCK CROPS GRADING AND VARIETY IDENTIFICATION CONTEST

OPEN TO VOCATIONAL AGRICULTURE STUDENTS AND
4-H CLUB MEMBERS

Separate contests will be held at the following points on the dates indicated in connection with the Purdue University Muck Extension Meetings.

Teams may compete at any one of the points listed:

Albion—October 3, 1944

North Judson—Thursday, October 5, 1944

PREMIUMS

The Baltimore & Ohio Railroad will award the first place team at each of the two points a cash payment of \$50.00 to be used in paying a portion of the expenses of the three team members and coach to the National Junior Vegetable Growers' Association meeting and judging contest at Rochester, New York, on December 8 and 9. No cash award will be made unless the winning team makes this trip. The rotating trophy will be presented to the high scoring team in the complete contest.

CONTEST RULES

I. Entries will be limited to teams of three members who are enrolled in High School Departments of Vocational Agriculture, or 4-H Clubs in the following counties: Lake, Porter, St. Joseph, Elkhart, Steuben, Noble, DeKalb, Kosciusko, Marshall, Starke, Jasper, Pulaski, Fulton, Whitley, LaPorte, Adams, Allen and LaGrange. Four members may compete with the three with the highest scores comprising the official team which will go to Rochester, New York.

Judging will start at 9 a.m.

II. VARIETY IDENTIFICATION

Fifty specimens of the following varieties will be identified by each team member.

- (a) **POTATOES**—Irish Cobbler, White Rural, Russet Rural, Katahdin (or Chippewa), Bliss Triumph.
- (b) **ONIONS**—Southport Yellow Globe, Southport Red Globe, Southport White Globe, Danvers Yellow Globe, and Sweet Spanish.
- (c) **CARROTS**—Chantenay, Nantes, and Danvers Half Long.
- (d) **CABBAGE**—Danish Ballhead, Wisconsin Hollander, Flat Dutch and Rock Red.
- (e) **BEETS**—Crosby's Egyptian, Detroit Dark Red.
- (f) **CELERY**—Giant Pascal, Golden Self Blanching.

III. GRADE IDENTIFICATION

Each team member shall grade fifteen potatoes, fifteen onions, ten carrots, and ten heads of cabbage on the basis of either U. S. No. 1 of Culls, naming the defect which causes the particular sample to be classed as "Cull".

IV. POTATO GRADING

Each contestant shall grade a 100 specimen sample of potatoes, dividing the tubers into two lots, those meeting the U. S. Grade No. 1 and those not meeting it. Contestants shall be scored as follows: Six points shall be deducted for every cull left in the U. S. No. 1's, and three points for every U. S. No. 1 left in the culls, and ten points for every minute of time used by the contestant.

V. SCORE

Individuals may score as much as 100 points on variety identification, 100 points on grade identification, and 100 points on potato grading. Thus, the perfect individual score would be 300. The score of each team will be the sum of the three highest individual scores of the members and alternate of the team.

**MUCK FARMERS LIKE THESE IMPORTANT
CHARACTERISTICS IN DEKALB HYBRIDS**

1. Rapid Growth

Not a day can be lost if corn is to mature between the frost free period of spring and fall.

2. Early Maturity

First killing frosts on muck usually comes in September. DeKalb's early muck hybrids are bred to mature by that time.

3. Quick Drying

Excess moisture must be eliminated so the corn will keep safely — DeKalb Hybrids has (a) Open husks, (b) Small cobs, (c) Open spaced rows. All of which hasten drying on the stalk in the field before harvesting.

4. Easy Husking

The standing ability and uniformity of DeKalb Hybrids make easy harvesting.

Section B. Bliss Triumph or other varieties commercially suited to muck soil

1st Prize	\$10.00	4th Prize	Ribbon
2nd Prize	4.00	5th Prize	Ribbon

A Home Town Industry

One Reason Why Ours Is A Great Nation

To reclaim land that otherwise would be wasted . . . to produce crops of high value where nothing grew before . . . that is the spirit of initiative, foresight, enterprise and skill that has made ours a great nation.

Success of the 1944 Muck Crop Show is assured. We are happy indeed to have this opportunity to extend best wishes to exhibitors, judges and to everyone else connected with this important agricultural event.

For years this Bank has been privileged to serve as the partner of farmers and townspeople alike in a united effort to advance the fertility, the welfare and the prosperity of the territory hereabouts. You are cordially invited to make full use of ALL of the financial facilities available here. You are always welcome at this Bank . . . your business is appreciated here . . . and we'll do our best at all times to serve you in a helpful, friendly and courteous manner.
