UNITED TELEPHONE COMPANY OF INDIANA, INC.

J. R. Meredith, District Manager
52 E. Lake Street

Knox, Indiana

Telephone: Knox 17

Starke County Courthouse

Knox, Indiana

Welcome to Starke County!

Here's a hearty welcome to one of Indiana's fastest growing areas with a population increase of over 25% in the past 15 years!

Starke County has long been famous for its agricultural products, particularly of the "muck crop" variety. In addition, the area is noted for the manufacture of wearing apparel; furniture and fixtures; fabricated metal parts; stone, clay, and glass products; ornaments; and many other items.

Starke County has excellent transportation and communication facilities. Most communities in the county receive electrical power over an interconnected transmission system, and water is provided by deep wells. There are airports at North Judson and at Knox, the county seat.

Churches of nearly all denominations are found in Starke County, and its schools are modern and well-staffed. Bass Lake, one of the largest in Indiana, attracts thousands of vacationists annually and provides year-round recreation facilities for local residents.

Located near the highly industrial areas of northwestern Indiana, Starke County has a large pool of skilled labor available and is an ideal area for industries seeking new locations. Inquiries are invited.

Knox Chamber of Commerce
Clyde Beville, Sec'y.

North Judson Chamber of Commerce
Thos. Beaulieu, Sec'y.

Right to the Point!

Classified Directory Telephone Advertising

is the direct route to increased sales.
Used by the growing businesses
of this city to reach every avail-
able prospect. Is your business or
service listed here in the "WHERE
TO BUY IT" section?

HOW TO USE THE DIAL TELEPHONE

at Hamlet

First Of All, obtain the correct number from the latest directory which has been distributed by the telephone company.

Next, remove the receiver with care. "Jiggling" the hook could conceivably give you a wrong number.

Then Listen For The Dial Tone

No other instruction is more important than this, because, unless you hear the steady, humming sound in your receiver before you begin to dial the number, your telephone is not connected with the central office equipment and you will be unable to contact anyone. The dial tone is the "Number Please" of dial equipment.

If You Do Not Hear The Dial Tone, replace your receiver for several seconds. Then listen again for the tone.

After You Hear The Dial Tone, you may begin the dialing operations immediately without replacing the receiver.

How To Dial The Number: Suppose, for example, you wish to call the number 2-1781. First, place your finger in the dial opening which is directly above the number 2. Turn the dial clockwise with your finger until you touch the finger stop. Then remove your finger and allow the dial to return to its normal position. Follow the same procedure for the rest of the digits in the number.

When You Have Finished Dialing The Complete Number, you should hear either the ringing signal or the busy signal within a few seconds. The ringing signal is a low, intermittent, purring sound, whereas the busy signal is a higher-pitched "buzz-buzz-buzz."

If You Hear Neither The Ringing Signal Or The Busy Signal, it's quite possible that you have made a mistake in dialing. Replace your receiver, listen again for the dial tone, and repeat the dialing procedure.

If You Make A Mistake While Dialing, replace your receiver immediately and wait for the equipment to "erase" your mistake

before listening for the dial tone again. Your error can not be corrected unless you replace your receiver for a few seconds.

Party Line Subscribers And Extension Users:

When you call from a party line or any line having an extension telephone, listen first, before dialing, to see if the line is in use. If you do not hear a conversation OR the dial tone, ask if the line is being used.

If you hear dialing "clicks" when you lift your receiver, they indicate that you have interfered with someone else's dialing. It is common courtesy to remain on the line until the other party has finished dialing in order to inform him that it will be necessary for him to redial his number. Then hang up and permit him to dial again.

How To Call A Party On Your Own Line:

Listen first, as usual, for the dial tone. Then dial the complete directory number of the party you are calling. (This will give you a "busy" signal). Now hang up to permit the called-party's telephone to ring.

When you think the person you are calling has had time to answer the telephone, pick up your telephone and begin your conversation.

When You Have Finished Your Conversation, be sure to replace your receiver carefully. If your receiver remains off the hook, your line is automatically "busy" to anyone who tries to call you.

If You Are Making A Series Of Calls, you must "hang up" between each call. Otherwise you will not hear the dial tone which informs you that the equipment is ready to accept another call.

Please Limit The Length Of Your Calls. Excessive "holding time" helps to tie-up and jam the dial equipment, which prevents the use of the service by your neighbor. Particularly if you are on a party line, we ask that you limit your local calls, as often as possible, to five minutes or less.

Special Information for Hamlet Subscribers

EMERGENCY

HAMLET FIRE DEPARTMENT,

dialUNdrhl 7-2221

Remember, please, that there will be no operator monitoring your call. Be sure to give complete information to the party who answers your fire call.

SERVICE CALLS

To call "Information," to report trouble with your telephone, or to request an installation, removal, or change in your telephone service.....DIAL "0" and ask for "HAMLET INFORMATION."

OUT-OF-TOWN AND SPECIAL CALLS

(Long Distance)

For "Long Distance" calls to all points, dial "0"

Be sure to include the prefix UNderhill when giving your telephone number to the LONG DISTANCE OPERATOR.

THE PREFIX IS IMPORTANT—The "UN" prefix on your telephone number is an abbreviation for "UNderhill". In giving your number to out-of-town friends, business associates, or long distance telephone operators, kindly include the full exchange name (UNderhill) as part of your telephone number at Hamlet.

CONVERSATION TIMING—In order to make certain that all Hamlet subscribers have an equal opportunity to make use of the dial facilities, all local calls will be limited by an automatic timing device which will sound a warning tone 30 seconds before the connection is broken automatically. The timing device does not operate on long distance calls.

HOW TO IDENTIFY YOUR PARTY LINE NEIGHBOR:

If you are on a party line, the first four digits of your party line neighbors' numbers will be the same as the first four digits of your own telephone number. For instance: 7-3983, 7-3988, and 7-3989 would all be on the same party line. See preceding page for instructions on calling a party on your own line.

WHERE TO PAY YOUR BILL

Hamlet telephone bills are due on the 21st of each month and are payable without collection charges on or before the 5th of the following month. Bills will be mailed each month to our Hamlet subscribers. Payment for telephone bills should be made in person at the old telephone exchange office in Hamlet.

Here's a Time-Saving Suggestion

The Yellow Pages tell you where you can find the things you need. Your neighborhood stores, your industrial suppliers and Mother's favorite shops are all listed in the reliable Yellow Pages

Look in the Yellow Pages of the Telephone Book

HOW TO USE THE DIAL TELEPHONE

at San Pierre

First Of All, obtain the correct number from the latest directory which has been distributed by the telephone company.

Next, remove the receiver with care. "Jiggling" the hook could conceivably give you a wrong number.

Then Listen For The Dial Tone

No other instruction is more important than this, because, unless you hear the steady, humming sound in your receiver before you begin to dial the number, your telephone is not connected with the central office equipment and you will be unable to contact anyone. The dial tone is the "Number Please" of dial equipment.

If You Do Not Hear The Dial Tone, replace your receiver for several seconds. Then listen again for the tone.

After You Hear The Dial Tone, you may begin the dialing operations immediately without replacing the receiver.

How To Dial The Number: Suppose, for example, you wish to call the number 2-1781. First, place your finger in the dial opening which is directly above the number 2. Turn the dial clockwise with your finger until you touch the finger stop. Then remove your finger and allow the dial to return to its normal position. Follow the same procedure for the rest of the digits in the number.

When You Have Finished Dialing The Complete Number, you should hear either the ringing signal or the busy signal within a few seconds. The ringing signal is a low, intermittent, purring sound, whereas the busy signal is a higher-pitched "buzz-buzz-buzz."

If You Hear Neither The Ringing Signal Or The Busy Signal, it's quite possible that you have made a mistake in dialing. Replace your receiver, listen again for the dial tone, and repeat the dialing procedure.

If You Make A Mistake While Dialing, replace your receiver immediately and wait for the equipment to "erase" your mistake

before listening for the dial tone again. Your error can not be corrected unless you replace your receiver for a few seconds.

Party Line Subscribers And Extension Users:

When you call from a party line or any line having an extension telephone, listen first, before dialing, to see if the line is in use. If you do not hear a conversation OR the dial tone, ask if the line is being used.

If you hear dialing "clicks" when you lift your receiver, they indicate that you have interfered with someone else's dialing. It is common courtesy to remain on the line until the other party has finished dialing in order to inform him that it will be necessary for him to redial his number. Then hang up and permit him to dial again.

How To Call A Party On Your Own Line:

Listen first, as usual, for the dial tone. Then dial the complete directory number of the party you are calling. (This will give you a "busy" signal). Now hang up to permit the called-party's telephone to ring.

When you think the person you are calling has had time to answer the telephone, pick up your telephone and begin your conversation.

When You Have Finished Your Conversation, be sure to replace your receiver carefully. If your receiver remains off the hook, your line is automatically "busy" to anyone who tries to call you.

If You Are Making A Series Of Calls, you must "hang up" between each call. Otherwise you will not hear the dial tone which informs you that the equipment is ready to accept another call.

Please Limit The Length Of Your Calls. Excessive "holding time" helps to tie-up and jam the dial equipment, which prevents the use of the service by your neighbor. Particularly if you are on a party line, we ask that you limit your local calls, as often as possible, to five minutes or less.

Special Information for San Pierre Subscribers

SERVICE CALLS

To call "Information"... DIAL "0" and ask for "SAN PIERRE INFORMATION".

To report trouble with your telephone, or

to request an installation, removal, or change in your telephone service... DIAL "9" and ask for "SAN PIERRE INFORMATION".

OUT-OF-TOWN AND SPECIAL CALLS

(Long Distance)

For "Long Distance" calls to North Judson, dial "9"
For "Long Distance" calls to Francesville or Medaryville, dial "80"
For "Long Distance" calls to DeMotte, Mt. Ayr, Rensselaer or Wheatfield, dial ... "401"
For "Long Distance" calls to all other points, dial "0"

CONVERSATION TIMING—In order to make certain that all San Pierre subscribers have an equal opportunity to make use of the dial facilities, all local calls will be limited by an automatic timing device which will sound a warning tone 30 seconds before the connection is broken automatically. The timing device does not operate on long distance calls.

HOW TO IDENTIFY YOUR PARTY LINE NEIGHBOR:

If you are on a party line, the first two digits of your party line neighbors' numbers will be the same as the first two digits

of your own telephone number. For instance: 8433, 8438, and 8439 would all be on the same party line. See preceding page for instructions on calling a party on your own line.

WHERE TO PAY YOUR BILL

San Pierre telephone bills are due on the 21st of each month and are payable without collection charges on or before the 5th of the following month. Bills will be mailed each month to our San Pierre subscribers. Payment for telephone bills should be made in person at John Dolezal & Sons store in San Pierre.

Classified Telephone Directory

KNOX

NORTH JUDSON

HAMLET

SAN PIERRE

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. Additional listings under other classifications may be obtained for a nominal charge by making written application, therefor, to the Company in advance. For Company accounting reasons only, such additional listings are identified in this section by a (*), shown at the left of the extra listing telephone number.

All subscribers (both residence and business) are listed alphabetically on the preceding white pages. The following pages (yellow) list only those who pay a business rate.

The "Spirit of Service" is a tradition in the telephone business—a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.

In answering the telephone, the English say "Are you there?" Some people say, "Hello." But in business organizations the correct answer is the name of the company or the department or the name of the individual who answers the telephone.

Distance, once a barrier to spoken words, has lost its power to limit the human voice. Today words defy intervening miles, and two friends with an ocean or continent between them talk as if face to face. In thus extending the range of man's voice, the telephone performs a modern miracle. It is part of the miracle that this is done so swiftly, so easily and so cheaply.

THE VOICE WITH A SMILE

Every day many pleasant voices go over
the telephone—many, many thousands
of them. It seems the number is grow-
ing all the time. The reason for this is
that most people realize the social and
business value of "The Voice With A
Smile."

THE VOICE WITH A SMILE

Every day many pleasant voices go over the telephone—many, many thousands of them. It seems the number is growing all the time. The reason for this is that most people realize the social and business value of "The Voice With A Smile."

The "Spirit of Service" is a tradition in the telephone business—a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.
